WHAT IS REQUIRED IN THE CATALOG?

For each enterprise system included in the catalog list, agencies must disclose:

Current system vendor

Current system product

The purpose of the system

What kind of data is stored in it

The department that serves as the system's primary custodian

How frequently system data is collected

How frequently system data is updated

[For the full text of the bill, see California Legislative Information](#)

WHAT IS EXCLUDED?

Enterprise systems do not include cybersecurity systems, infrastructure and mechanical control systems, or information that would reveal vulnerabilities to, or otherwise increase the potential for an attack on, a public agency's IT system.

Additionally, section 6270.5 does not automatically require disclosure of the specific records that the IT systems collect, store, exchange or analyze, exchange or analyze, however, the Act's other provisions pertaining to disclosure of such records still apply.
